Your Dog's Home Away From Home

OUR TEAM

With over a decade of experience in dog behaviour, training, and rehabilitation, Ryan Kiddell is the founder of Good Dog Training and the driving force behind its clear, structured approach. Known for his calm, confident presence and deep understanding of both canine and human behaviour, Ryan has helped hundreds of owners turn challenges into real, lasting change.

Ryan brings a unique edge to dog training with a background in physiology and behavioural science. This lens shapes the way he approaches every case — taking into account not just the dog’s behaviour, but also the environment, triggers, communication patterns, and nervous system responses that sit underneath it.

The trainers at Good Dog Training Auckland are more than just professionals—they are passionate, highly skilled experts dedicated to helping dogs and their owners thrive. With a deep understanding of canine behaviour and years of hands-on experience, they bring patience, structure, and a results-driven approach to every dog they work with. Their commitment goes beyond training; they genuinely care about each dog’s well-being, ensuring they feel safe, supported, and set up for lifelong success.

Our approach blends scientific research, practical expertise, and deep empathy to ensure your dog’s unique needs are met. Whether it’s leash reactivity, anxiety, or basic obedience, our proven methods ensure real, lasting results. **Typically our services address the below three categories.** More on the next page.

Dog Training

Unleash your dog’s full potential by professional dog training sessions, whether private or in a group context. These sessions are led by skilled dog trainers and handlers who understand every dog’s behaviour, needs and mental health.

Daycare

Our expert-led daycare provides everything your dog needs for a fulfilling day—structured play, socialisation, mental enrichment, and expert care. With a balanced mix of activity and rest, we ensure your dog thrives in a safe, supportive environment.

Short & Long Stay

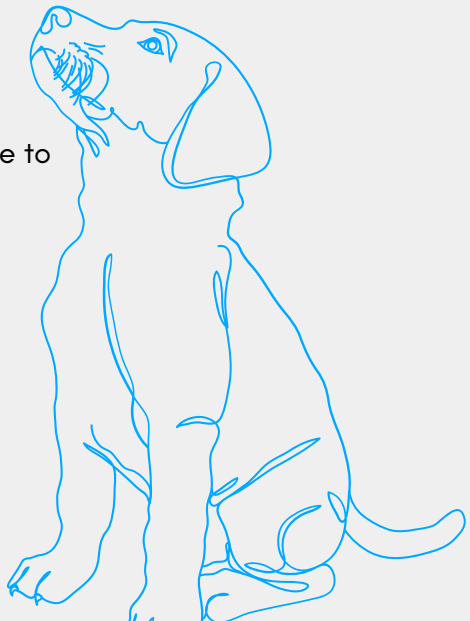

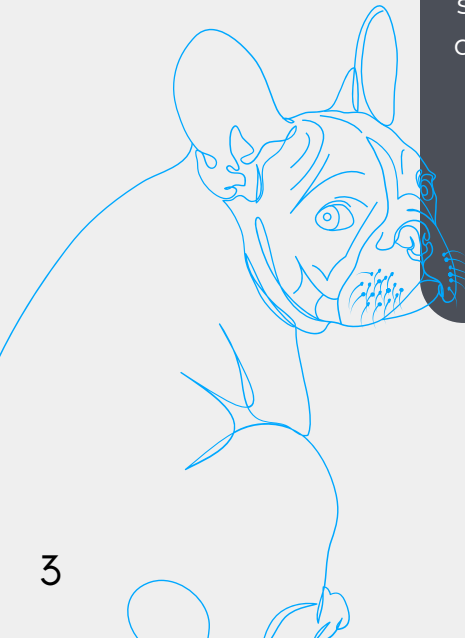

A holistic approach to dog boarding and dog kennelling. At Good Dog Training Auckland, our boarding kennels offer more than just a place to stay—we provide expert care in a safe, structured environment where dogs feel secure and supported.

All services start with a FREE call assessment by our head dog trainer.

This is a quick, no-obligation chat to learn more about your dog—and for you to meet us and see if we’re the right fit for each other. It’s ideal for new clients unsure where to start. In this session, we:

- Discuss your dog’s background, behavior, and your goals.
- Recommend the most suitable training path.
- Explain our approach so you know what to expect.
- Answer any general questions you have.

Note: No hands-on training is provided during this time. It's simply a chance to connect and guide you in the right direction.
